Ward & Payne's Shears No. 100 and 125 are very much improved and manufactured specially for this country.
They are made of the best steel and in price and quality will compare favourably with any others in this market.
They can be had direct from the importers J. MOHR BELL & Co. or through all Hardware dealers.
Facts worth knowing
1—During last season the demand for WARD & PAYNE'S Shears in Australia was so excessive that cable messages were continually being sent for increased supplies.
2—Single pairs of WARD AND PAYNE'S Shears clipped 3,000 heavy woolled sheep, and the most expert clippers in New Zealand affirm that they can clip nearly 10 sheep per day more with these Shears than with any other.
3—WARD & PAYNE are introducing two new Patent Shears No. 200 and 'The Equalizing Spring' for which they claim superior advantages. The undersigned will be glad to forward sample pairs on application.

THE EXHIBITION.

It is difficult to say how much the public is indebted to the Directors of the Rural Society for their great efforts to supply us with an exhibition which, viewed in every light, speaks progress. The grounds this year show great improvement; the trees, plantations, flowers and shrubs have all grown, within the last 12 months, more than they would grow in 5 years in Europe; and, strange to say, although the exhibitors this year are fewer than those of last year, the concourse on the grounds seems greater than ever.

The main building is as usual filled with agricultural implements which are really so numerous that the list can only fit in the Catalogue; judging the country by these exhibits, agricultural industry in the River Plate must hold a foremost rank. At an exhibition in Chicago one could not expect to find a greater display of labour-saving implements than is to be seen at Palermo, and yet, with all our machinery and all our implements, according to our Rosário correspondent, the hoofs of wild mares still thrash our corn. We noticed close to the door a machine for separating the bran from the flour, which is patented by a firm in Lujan. On the tables were samples of wines, oils and alcohols from the Upper Provinces; some of the wines are very superior, and the day is not far distant when Chateau Rioja will usurp the place of Chateau Lafitte. As for the oils, the growth of the manufacture in this country is something truly wonderful; linseed oil, formerly so very dear, will soon be as cheap as whitewash.

In different parts of the grounds one met with steam machinery of various calibre, and in one corner they have erected a windmill for pumping water, perhaps one of the greatest of all necessities in the camp. In another part we found a 'noria' working, with its endless bands of little buckets, and here were placed sample estancia gates which seemed to attract the attention of estancieros.

Iron troughs, of a peculiar make, and very adaptable to our estancias, where water has to be supplied to the animals, were exhibited here; also a patent machine for boring holes inñandubay posts, and behind the 'noria' was a very excellent corral, put up by Messrs Parry and Co., with much taste, to show the visitors the excellence of their sheep-wash, and a few sheep, formerly scabby, and now cured by this wash, were shut in this corral.

In the stalls, as we have already noted, although the display of animals this year is less numerous than last, their quality and condition seem better. We never saw in England or in Ireland any finer cows and bulls than those exhibited by Mr. Pereira: they were all of the Durham breed, but natives of this country. Mr. Casares's horses were very numerous and in splendid condition, whilst the Argentine Negrettes to be seen in the little corrals at the end of the yard, were believed by most people to have just landed from Germany; and those of our readers who visit the show should inspect well the Marcos Paz Negrettes, exhibited by Mr. Meyer, from the Brunkhorst Cabaña. We firmly believe that at the rate we are progressing in the Negrette line, Argentine Negrettes will very soon find their way to Europe, where there will be nothing to beat them, and the story goes that Mr. Chas. an enterprising sheep-farmer and estanciero of the south, wandered for three years through Europe looking for Negrette rams better than his own, and came back without having purchased an animal.

The following are the speeches of the Chairman of the Rural Society, Mr. Sundblad, and Governor Rocha, at the opening of the Show, for which we had no space in our last issue :—

Mr Sundblad said—

Ladies and Gentlemen,

The Committee invited the President of the Republic to preside here to-day, and H.E. has sent us an expression of regret that a slight indisposition has prevented him from joining us. It has fallen to my lot to represent the 'Argentine Rural Society' at one of its most important Exhibitions—the Fifth—at which the wealth of the country and the great yearly improvements achieved in our principal industries, Breeding and Agriculture, through the intelligent efforts and constancy of breeders, agriculturists and mechanics, is made clearly apparent; our products can now compete with those of the most advanced nations of the world.

All this can be seen, Gentlemen, at this Exhibition, which the Rural Society announced would be a National one, and invited all the provinces to compete; only a few of them, however, in spite of their desire to do so, have sent us any remarkable specimens of their products. The Society extended the Regulations for this Show, paying special attention to Argentine horses, cows and sheep, with the view to make patent their excellent qualities; but, unfortunately, breeders did not respond; still I trust they will next time contribute to the success of a meeting like this, in which all are vitally interested. As regards other animals, manufactures and machinery, we have them all from home and abroad.

Such Exhibitions as this are a veritable boon for the country and a stimulant for producers, who see the perfection to which foreigners have brought the improvement of breeds and agricultural produce. Tillage, Gentlemen, is to-day indispensable on every estancia as well as for export purposes. The advances we have made in both breeding and agriculture are exclusively due to private enterprise, and all we now require to populate our camps and reach a full development, is cheap freights and facilities for transporting produce. The country is bound to assist private enterprise in this respect, so that the people may devote themselves to constant labour, assured of the maintenance of Peace—the basis of all public prosperity.

Another thing that we require is an Agricultural and Veterinary School in the capital, with a complete curriculum and a Farm for practical experiments, to turn out trained farmers who will be competent to level up our productions, both in quantity and quality, to the same height as those of the United States, our master in this respect. Veterinary science is one we also specially require, as this is essentially a pastoral country; and, in addition we require an organised Commission to inspect imported animals, to prevent the introduction of diseases which would do us a deal of injury.

In the name of the Argentine Rural Society I thank the National authorities and those of this province for the spontaneous assistance they have given us in carrying out this great National Show and effecting the improvements you see in our building, destined for all our future Shows, and I now declare open to the public the Fifth Show of the Argentine Rural Society.

There was loud applause at the conclusion of Mr Sundblad's address and he then called on Governor Roach to speak, H.E. briefly referred to the patriotic efforts of the Society, pointing to the splendid Show just opened as a proof of their success, and he called on the country to show its appreciation thereof. H.E. wound up by proposing a vote of congratulation to the Rural Society and its worthy President. Loud cheers greeted the Governor's short but telling speech, and the visitors dispersed through the grounds, Mr Sundblad and the Committee taking the Governor to the Pavilion for a light lunch, over which they all talked agricultural 'shop' for fully an hour, H.E. getting many valuable hints which he is pretty certain to turn to good account for the province at the Council table in Calle Moreno.

MILITARY PREPARATIONS IN THE ARG. REPUBLIC.

(From the Jornal do Commercio)

The above heading is not a new one, nor is the question a novel one. More than once, against our will, have we seen the necessity of calling attention to the unhappy tendency of our South Platine neighbors, to arm in the midst of peace, as if on the eve of serious international complications.

Eight years ago, in view of this tendency, of the fortification of Martin Garcia, of the orders for gunboats, field-batteries, mitrailleuses and innumerable cases of armament, the Government of Brazil thought it opportune to question that of the Argentine Republic on this delicate matter. Diplomacy did its part; the usual satisfactory explanations were given, and the Argentine Republic pursued its policy of armed peace, a policy it inaugurated on this side of the continent.

The Solimoes, the Savary, the unfortunate Independencia, now under British colors, were the principal diplomatical guarantee. Whilst the republic raised a loan for railways, that was mostly spent in armaments, Brazil saw that the credits opened, under responsibility of the Executive, went to increase the floating debt, which later on would have to be amortized by the proceeds of the 1875 loan.

Then it was said in the Plate that the Republic had to settle matters with Chile, and probably as much was said with regard to Brazil, when the Chilian Government and press expressed anxiety on the matter. What do the armaments of the Arg. Republic mean? What is the object of its military preponderance, justified by no necessity of defense and in no proportion with its population or financial revenue.

No nation arms for the sake of ostentation, and much less a nation on the highroad to progress, when the budget of its revenue does not meet its necessities.

The Argentine Republic recently increased its naval power with a first-class iron-clad, the Almirante Brown: Yarrow and Co. received orders for various torpedo launches, whilst John Elder and Co. of Glasgow, constructed another: it has two of the most experienced men in the manufacture and management of torpedos: the Buenos Ayres press neither boasts nor makes any mystery of the numerous arrivals of military armament: and now we learn that the Argentine Government has contracted or is about to contract for a still more formidable Argentine iron-clad.

Every one is master of his own house, and thus the Republic may say that Brazil also increases its armaments, since it opened for the purpose a credit of $4,000,000. Nevertheless, there is a capital difference in the motive: we have not done, nor shall we do anything, in this line as initiators of the policy. Certainly it is not to be questioned that, owing to the Argentine armaments, we have constructed iron-clads: our extensive sea-coast is a geographical reason for same. All foreigners in the country will testify to the pacific spirit of Brazil, and our international policy, so calumniated by our neighbours as artful and ambitious, has never given us an inch of territory, nor do we need it.

It is a dream to suppose that we think of usurpation, conquest or anexation. All our interventions in Platine affairs reflect much to our credit. Nations are not affected by mere protestations of friendship, nor do we pretend that our words will in any way influence the policy of armed peace of our neighbors. But we must repeat that if this scourge of armed peace is fixed on this part of the continent, a peace of improbable duration in itself, we shall not remain behind in the preeminence in same, a preeminence called for by our geographical position. But we may say that we at least did not inaugurate the military policy.

When some months ago we called attention to the federalization of the Argentine Misiones, we advised the Imperial Government of the necessity to give an impulse to the Brazilian Misiones; then some Platine colleagues referred to our remarks as to the point in a patriotic sense, but unfounded as regards the designs of the Argentine Government. Let us consider facts.

Whilst seizing from Corrientes a vast territory, that the Provincial Government had fostered and resolutely fixed for the creation of an Uruguayan-Argentine State, at the back of the Brazilian provinces; whilst Argentines settle in the Brazilian province of Parana, the Republic increases its armaments in a ratio with the pacific tendencies of its neighbors.

Would it be prudent to unveil the situation? Can we without danger impassionately view the politics of the continent?

Peace is the greatest boon, but it must be quiet and durable to make the happiness of nations. We want peace—no truce. If necessary, let us maintain an armed peace, since such a one is offered us. Brazil cannot cede the naval supremacy it has a right to aspire to and which is indispensable for the defence of its coast.

The armaments of the Argentine Republic constitute a permanent danger we must not lose sight of. They project an intense shadow over our horizon, and its direction must be observed. We fulfil our duty by stating our apprehensions in the matter; the Imperial Government will best know how to act.

THE COLON THEATRE.

LE PRE AUX CLERES.

BENEFIT OF HELENE LEROCX.

A few days ago we noted an observation in a critique published in another newspaper, to the effect that only Englishmen or Germans are real amateurs of music, and that the greater part of the theatre-going public attending Colon only care for loud screaming. We would venture further and feel inclined to think that the greatest part of the public that goes to that theatre, goes only there to show that they can turn out, or can afford to pay for a box for their wives and children.

The conduct of the public in general on Thursday night, proved this sufficiently. The greater part of those present had not the least idea about music, and because the papers had not told them when the clapping came in did not do so, and consequently showed themselves utterly indifferent. If Mdlle. Leroux has considered her benefit only as a money-making speculation she must be contented. If she considered her benefit as an occasion for the public to show its esteem for the singer and to make her an ovation, she must have been rather disappointed, we should say. Only her aria in the second act was somewhat warmly applauded and she was recalled after the piece because—well because some people thought it an impoliteness not to applaud. In short the public conducted itself coolly, and we cannot compliment the audience.

Our space does not allow us to analyze the whole music, etc, which, in fact, is almost impossible after a 'première,' We will only note, 'en passant' the best parts.

The overture in 'sol menor' is very striking, as is the aria in 'fa mayor' and a motive in 'si menor,' followed by one in 'fa bemol;' the repetition of the primitive rythm was very nice and agreeable. In the first act we note the duo 'Les rendez vous,' the aria by Mergy, 'O ma tendre amie,' and the finale.

The overture of the second act is splendidly written, especially for the violin parts, which play a principal role in the whole piece. Notable, also, is the aria in the second act, 'Jours de mon enfance.' The trio, the words of which we do not remember, between Isabel, the Queen, and Cantarelli, is excellent. The masquerade and the provocation scene are gems of music, as well as the finale of the third act, in which the mixed chorus, 'Il est mort,' produces a most striking effect,

The representation was first class. Mdlle. Leroux would make a splendid Isabelle, had she not the drawback that she seems to us a little old (young as she is) for the role. Her singing was excellent, and she really deserved to be better appreciated. Mdlle. Merle sang well; we have seldom heard her to such advantage. Mdlle. Gregoire's voice never pleased us, it is too weak for so large a house. She is a very nice actress and gives proofs of thorough study. Mr. Mauras was a little hoarse again: his acting was very good, and we would have no fault at all to find were it not that in the provocation scene he is a little too excited. Mr. Nigri, as Comminges, was very good, and so was Mr. Poyard as Cantarelli, which is a very difficult part, on account of the accent. Mr. Maugé was excellent: his singing was very notable and not less his acting, principally in the beginning of the third act.

The chorusses were not bad, but we were sorry to see two new (at least we believe so) and very ugly faces among them.

We end this, indeed, too short review with a sincere compliment to Mr. Maurice Grau and all the actors for their splendid costumes, which attracted general attention. Mdlls. Leroux wore two dresses of most costly materials and splendidly cut. Mdlle. Merle's toilette too was very nice, and so were Mauras's different costumes. We do not, however, think that the ladies' dresses were according to the period.

A word of praise to Mr. Gravenstein, the talented 'chef d'orchestre.' The orchestra was very good, and the applause which followed the second act was well merited.

We hope to see this piece repeated soon, If the public in general does not comprehend what real music is, the dilletanti do, and Mr. Grau can be sure of a good house-full of them at least.

EDITOR'S TABLE

The *Nacion's* Pernambuco correspondent telegraphs the news per R. Mail Steamer Neva. There is not very much of it. The long-standing quarrel between Germany, or rather Prussia and the Holy See is said to be arranged, and the former power will henceforward be represented at the Vatican. The Emperors of Russia and Germany have decided to act in concert in stamping out Nihilism and Socialism, the Czar being specially determined in the matter and also resolved (at least he says so) to carry out liberal reforms. The latter will have far more effect than all the 'stamping' the Autocrat and his legions could do in a century. No change in Tunis.

Our friend Dr Fleury of Montevideo is preparing a somewhat ghastly exhibit for our Continental Exhibition. He and Dr Isola have applied to the hospitals for 2 corpses which they intend to embalm and send to the Show! There is no accounting for tastes, but we think such an exhibit would be out of place at the Exhibition. The bare idea is enough to deprive one of all appetite for High Tea, being too suggestive of low diet and the grave. Something more lively, doctor, if you please.

The *Patria Argentina* publishes a telegram from Valparaiso which says that the Diplomatic Corps at Lima have called on their Governments to reinforce their respective Pacific squadrons, as they fear that the Chilians are about to abandon the Peruvian capital. This is rather important news. When diplomats express fear of any event it is generally because they know pretty well that it is about to happen.

There will be Mass, with Sermon in English to-morrow, Sunday, in San Roque Church, at noon.

It isn't such a terrible thing after all to be arrested for publishing news about a secret sitting of Congress Our imprisoned brothers of the Pen in the Cabildo live like fighting cocks; their rooms are crowded with the most distinguished visitors, and presents of champagne, cigars, Paita cake &c. &c. pour in on them. The moral of this business is that secret sittings are all nousense and should be abandoned, as Argentine Congressmen seem as unable to keep a secret as so many ladies would be. Yesterday all the foreign editors in town signed a petition to Congress begging that their Argentine confreres may be forgiven 'for this once.'

There is a suicide epidemic at Montevideo. Yesterday we reported two attempts at the crime, and now we see that a beautiful young girl of 17 has blown her brains out, because her parents did not approve of the attentions of a young fellow to whom she was attached. There is a frightful absence of religious and moral restraint displayed in these crimes. Old or young, rich or poor, the moment anything occurs to ruffle their feelings, bang! goes the revolver, or down goes the poison, without a second's thought of 'Heaven's canon 'gainst self slaughter.' It is terrible.

There will probably be some little trouble for the police to-morrow in enforcing the Sunday Closing edict. We hope they will act vigorously. The first day is half the battle. Many of our colleagues indulge in the most ineffably dreary remarks on this closing movement, shedding inky tears over 'Liberticide,' 'the violated Constitucion,' 'libertad de trabajo,' and all the old stock nonsense. The shopmen of Buenos Aires have hitherto been veritable slaves, and it is time they should be emancipated for at least one day in the week. We know of establishments where *two hours* every fortnight, and twenty minutes for each daily meal, is all the liberty allowed to the assistants from year's end to year's end, their daily hours being from 7 a.m. to 10 p.m.! Better be a galley slave at once.

We are sorry to learn that Mr T. Watson, 'mine host' of Belgrano, is still suffering from the accident he met with five months ago, unable to move the injured leg, and in addition has lost the use of his left arm through the crutches. In spite of this his famed hotel goes on as usual and the house and grounds are in beautiful order, the garden being full of blossoming flowers. The cook is a master-hand at his profession: and 'Watson's' is now even better able to meet the demands of fashionable visitors than twelve or thirteen years ago, when every Britisher in town used to feel bound to visit the famous caravansary on Sunday, and the most 'opiparo' breakfasts were served, regardless of expense. Somehow the present generation are by no means so jovial as the men of those days, when Buenos Ayres had neither tramways nor telephones, nor a cable to Europe, nor a National Bank to speculate in, nor half the things it has now. Mr Watson's old friends should give him a call, for old times' sake.

One of the Italian emigrants by the Europa cut his throat with a razor shorly after the steamer left Rio for Montevideo. It appears that his son did the same thing a year ago, so the mania seems to run in the family, which will soon be extinct in all probability.

Mr William Martin's lecture on Elocution, delivered on Thursday night to the members of the Excelsior Society and their friends, was a great success and thoroughly appreciated by a large audience. The talented lecturer embellished his subject with light touches of his characteristic humour, and all present declared that they had never, or hardly ever, passed a pleasanter evening.

We have late papers from Mendoza but can find nothing in them beyond the very satisfactory news that the Beer up there is improving every day. They make London Stout and Dublin Double X up there now which it would puzzle Barclay or Guinness to tell from their own productions. We tasted the other day some Mendoza Burgundy that almost holds its own with the French article. Mendoza will soon be invincible in the way of Beer, Burgundy and earthquakes. Our correspondent's letter in another column is more newsy than the papers.

The *Diario* says that Madlle Leroux went in person to the Casa Rosada on Thursday and asked President Roca to take a box for her benefit, which H.E. did with the greatest pleasure and many compliments to his fair and talented visitor.

The report of the English Literary Society will be found in our Supplement. It shows sound, careful management, and the Society flourishes. Long may it continue to do so. It is the only English centre and rallying ground for our nationality, while all others have dozens. It should invest in a gorgeous banner for public occasions.

The telegrams from Valparaiso are not of a nature to confirm the news going round the papers to the effect that the United States has said 'hands off'! to Chile in reference to Peru. The latest news is that the Santiago Government is busy organizing a civil administration for Lima and the other parts of Peru in Chilian occupation. The invisible Mentor outside the Bolsa had better keep ringing his bell hard; on all sides there are signs of breezy times.

'Two of a trade never agree.' Our highly respectable colleagues *El Industrial* and *La Industria* are exchanging vigorous compliments on some mutually interesting point. We fear that we saw at least 'the lie oblique' given by one to the other yesterday. Keep cool, colleagues.

An awful affair occurred yesterday in Calle Artes near the Mercado del Plata, where a Frenchman named Jubeau attempted to murder his wife and then cut his own throat, falling dead instantly. The weapon used was a large penknife. The woman has two or three wounds in the throat, but they are not dangerous. After inflicting them the man returned to his room and with desperate resolution drew the knife three times from one ear to theother; he then staggered into the patio and fell dead. The immediate cause of the tragedy was his wife's reproaching him for not finding work, as they were almost starving, threatening to write to her family for money to return home without him. The couple only arrived here about a month ago, and did not live on very good terms.

'Ultimo' will be repeated to-night by the German amateurs of the Concordia Club (Cuyo 523). We recommend every Britisher who understands German to attend, as the play is a most diverting one and is splendidly acted and put on the stage by our Teutonic friends.

'Epizootia' has broken out amongst the horned cattle in Bragado.

ON 'CHANGE.

Sept. 30th

Patacons	25.60
Cedulas A	99½
National Bank Shares	121½

This being the last day of the month, the business on 'Change was larger than usual; the 'vencimientos' marked on the board were:

Gold	13,294,000 pats.
Cedulas	1,715,080
Nat. Bank Shares	174,559

And the Bolsa liquidator marked the following as the prices of the liquidation:—

Gold	25.60
Cedulas	99
Nat. Bank Shares	121

It will be seen from the very large amount of cash gold sold what a heavy sum remained to to-day to be closed up. Although the total amount of gold to be liquidated was over 13 millions pats, we never saw less gold on the liquidators' counter. Provincial Bank gold checks are now coming greatly into vogue and are a great convenience, they form a regular specie emission and meet admirably the wants of the market, combined with the gold checks of the other banks.

The Government broker delivered to-day a very large amount of gold, but there was paper to pay for it all. Gold opened at 25.60, rose to 25,65, and closed at 25.60, cash sales 949,567. For Oct. 155,000 at 25.60, and for December 20,000 at 25.55. Total day's sales 1,094,567 pats.

Cedulas held even and firm, they opened at 99⅝, and closed at 99½, cash sales 201,550, and for Oct. 34,000 at 99½. It was plain from the small amount of business done that the bulk of the liquidation was closed beforehand.

Nat. Bank Shares ruled a drag, the sales cash reached 7,809, opening at 124, dropping to 121, then going to 122½, and finally closing cash at 121¼. For Oct. 2900 sold, opening at 124, dropping to 123, and closing at 124. Sales of day 10,709 shares.

A better feeling pervaded the hall this morning when it was announced that all would be met and the failures hinted at yesterday proved incorrect. There was a very heavy delivery of Cedulas and Bank Shares, and at 3 o'clock the Shares were offering cash at 118½, they then reacted.

As appears by notice in another column Mr Francis Lix Klett retires from the firm, and the barraca business will henceforward be carried on by the firm C. Lix Klett & Co, of which M. F. Olivera, the wealthy tobacconist, is socio comendatorio.

Mr Auld of Chascomus was welcomed, he says the camps in the far south are in splendid condition, and he purposes soon making a trip down there.

The well known firm of Gebbie & Dodds is dissolved as appears by notice.

We publish at foot a complete list of steamers for October; it is really by studying that list one can form an idea of how the trade of the Plate is growing; it reads like as if Buenos Ayres were New York, and all our steamers leave with good cargoes.

The French packet Orenoque has already engaged much cargo, dry hides for Bordeaux at 60 frs, for Barcelona at 80, and bales at 20 and 10 per cent.

Yesterday our moles were indeed a pleasant sight, over one thousand Italian immigrants landing; could we have such arrivals daily, how changed would not everything be in this country in a few years, and yet by a little more method and organization it might be easily effected.

There was a great scene on the mole head yesterday morning, three passengers, some of them handsome well dressed women, caught smuggling gold watches, earrings, bracelets etc. under their clothes, as a matter of course it caused a tremendous hubbub on the Paseo Julio.

The Minister of Interior will on the close of Congress go with his family for a few weeks rest to the mountains of Cordova, and well he deserves his vacation; none have worked harder; yesterday he sent a message to Congress asking what to do about some 3 millions patacons claims against Republic before 1862; rather an old debt.

Yesterday a Cacique from the South visited Governor Rocha at the Government House and asked for a few square leagues of land to start an agricultural colony, all his Indians want to sow 'lino.' We suppose the Government will give him the land.

Mr Moores, who has just arrived up from the South, was welcomed on 'Change; he says they saw nothing of the floods down there which the city papers make so much of.

At Baltar & Quesada's to-day there was a great crowd, land in Giles and furniture in Calle San Martin all selling.

The Rural Exhibition grounds were more crowded than ever to-day. Drysdale & Co. are to the fore with their unbreakable steel Ryland's wire and magnificent Wood's machines. Shaw & Co. also have a large area under their machines, and Schwartz & Co. astonish the estancieros with their splendid iron safes made in the country and so cheap, just the thing for every estanciero.

The sales at the ring were—

For cash	919,567 25.60-55-60
For Oct. 31st	155,000 25.60
For Dec. 31st	20,000 25.55

Shipbrokers report engagements to-day for Neva for Havre, and for Orenoque for Bordeaux, at 20 francs.

The Orenoque arrived at Montevideo to-day; her mails come up to-night in Messenger; she brings, we are happy to announce, a large number of wool-buyers.

As is ever the case at the close of the month's liquidation, there was a very heavy business done at afterhours, but the liquidation passed off much easier and better than last month. The Bank Shares, however, show a drop on the prices at the end of August, and the liquidator's auction to-day was to sell 573 shares, whilst last month it was called to buy 2580 shares. Gold rules the same to-day as on 31st August, when the liquidator bought as auction 15,500 at 25.60; and Cedulas that were sold at auction in August at 98½ to-day were closed without any liquidating auction at 99½; but no sales of this stock reported at afterhours.

At 4 o'clock the share market ruled so very weak that sales were made at 116, but they soon reacted and jumped up to 120; at half past 4 o'clock the liquidator called auction to close liquidation

and this closed the day's business, to-morrow the liquidator pays differences, &c.

The cable continues interrupted and no messages either by cable or land lines; they say the Orenoque will bring messages from Rio or Pernambuco. The telegram published in the *Libertad* to-night is all bosh.

The Italians are evidently out of the shares, as we noticed that there was much less of the Italian element on 'Change and at the Bolsa gates than at the end of last month.

In exchange nothing to report save that best drawers refuse to draw over 49$.

The Provincial Bank discounted to-day 4 millions.

It was said on Change that two of the private banks refused to renew loans falling due to-day on Bank shares. The Bank share market is most critical, as it is in the power of the large holders to speculate for a fall, which in the present state of affairs seems easier than a rise.

At the late auction at Messrs. Bullrich and Co.'s the principal purchaser was Mr. Andrew Jones, of the Partido of Brandzen, who bought one lot of 24 splendid ewes and several fine rams. Mr. Jones also paid this year for four imported Imperial ewes $10,400 m/c; 24 ditto $19,500, 1 Bailleau ram for $8,000, 1 ditto Gilbert for 4000, 20 Rambouillet ewes for 0,000, 1 ram from Mr. Duportal 2100, and also several other animals of note. The ewes cost from $1000 to $3200 m/c. With this prime stock it may be safely said that Mr. Jones now possesses a breeding establishment second to none in the country.

A large sale of wool from 2o to 30,000 ar. from deposit was reported on Change to-day, particulars reserved. The letters from Europe are somewhat better as refers to wools.

It is very remarkable that the gold vencimientos for August were 13,800,000, being about the same as to-day, which points to the chronic indebtedness of gold by the Bolsa to the market, but many parties are now clearing off this indebtedness.

The Sales at afterhours were—

Maize, 1,280 fan. morocho and yellow, in grain, at 50, 55, 54, 53

The long talked of Government project to aid the Mortgage Bank, it was said on 'Change, went before the Chambers to-day. Spite, however, of the great improvement this will work for the Bank, if carried out, the stock rules heavy and very much off-red. Everyone in the market holds the stock, there being some 16 millions pats in circulation; so long as money rules a drug, the stock is of course rising, but when money tightens the weight of so great an issue is felt, and the large exporting houses that invariably hold their surplus money in Cedulas during the winter months are now selling out, as the money they will require for produce purchases.

The 100 million loan is still the talk of the whole market. The best friends of the country consider the measure an error, as no matter how much it may save the country it is not calculated to improve our credit abroad.

Telegrams from Chile to-day to private parties state that the new Government is showing great activity and determined to push war matters ahead, and settle up the Peruvian question. The greatest activity prevails, and the Chilian Government is stirring itself to arrange the basis of a Peruvian treaty; up to last night the Argentine treaty had not yet been laid before the Chilian Congress.

We commend to owners of lands in Bahia Blanca region a capital article in the *Diario*, a new paper, admirably edited and brimful of news from all quarters.

Nothing in the way of saladero contract is as yet spoken of on 'Change; the brokers say nothing will be done before November. The cattle are thin and in poor condition all through the country.

President Roca, during his two months leave of absence, will inspect our frontiers and see to their proper defences.

Yesterday the Government sent a most important message to Congress on making a new and complete military organization throughout the Republic, and the Government asks Congress to despatch the bill with the least possible delay.

Last night the Deputies held another secret session and all the brokers wanted to know what is up, and, now that that house has despatched the Treaty, the necessity for further secret sessions is not obvious. At the secret session in question they say the Minister of War attended and it held till 1 o'clock in the morning, but none on 'Change dared say what was discussed unless they want to join our forlorn colleagues now locked up in the Policia.

Shipping cows from the Banda Oriental to this Republic is not so easy as many think; the news is that the Henry and Davidson, a species of floating steam ferry for cattle, ran aground at Punta Gorda; all the cows drowned and the launch with difficulty saved.

Trees in the Plaza Once this morning. All our Once friends rubbed their eyes hard and could hardly believe the sight; beautiful green trees planted in the old Once, what a change! And yet 20 years ago the place might well have been lined with Eucalyptus trees.

Messrs Ledesma Hermanos have just received 144 cases machinery, &c., for a new sugar mill for the Interior, and ask free permit; by all means we say to the Minister give it, and also give Messrs Ledesma a gold medal as one of the most enterprising Argentine firms in this market.

Messrs Woodgate Brothers, shipbrokers, in their circular for the mail, give the following exports for the month of September, 1881:

Baltar & Quesada

GRAN REMATE
De la hermosa casa-quinta
Del Sr Dr. D. Amancio Pardo
En un solo lote
Base de venta ps 375,000 m|c
Frente a la Estacion Caballito,
F. C. del Oeste.
Esplendido parque ingles
GRANDIOSA PELUZA
El remate se efectuara en la misma quinta
La mas grande, hermoso y variada coleccion de coniferos pinos, toyas y aromas.
Edificio elegante y comodo
El Domingo 23 de Octubre
A las 4 en punto de la tarde

Procederemos a vender por orden y cuenta del Sr Dr D Amancio Pardo, la famosa quinta arriba espresada, situada frente a la estacion y plaza del Caballito, al Sud-Oeste calle por medio con esplendidas propiedades de los Sres Zuberbuhler, Zorfaquin, Niebuhr y D. Ventura Fernandez, al Norte con el Banco Nacional, y por el otro costado con los Srs Josbery, Orma y Olivera.

Esta renombrada quinta esta situada en la parte mas elevada en 30 leguas a la redonda de la ciudad de Buenos Aires, razon por lo que en este paraje jamas ha habido un caso de epidemia.

El Parque Ingles, en cuyo centro se encuentra la casa, se compone de una superficie de 47,000 vs cuadradas, y la base de venta por toda la gran quinta es la suma de 375,000 m|c en condiciones sumamente ventajosas para el comprador.

En ello se encuentran platas de un merito extraordinario, por su belleza y rareza. Un gran parque ingles, la mas vasta peluza, una coleccion de pinos, tuyas, aromos, la mas completa y hermosa que existe en el pais, y la fruta ha adquirido renombre.

El edificio perfectamente construido se compone de 5 grandes habitaciones comodas, ventiladas de gran altura, con una galeria de vidrios de colores al Sud, de abrir y cerrar adoptable a todas las estaciones, y al Norte una magnifico vestibulo. A estas habitaciones sigue un esplendido patio cercado de una pared y rejas de fierro altisimo, encuadrandolo de un lado y de otro cuatro habitaciones, cocina, letrina y todas construidas con buen material, maderas duras, ademas al lado de afuera hay tres habitaciones para quintero y sirvientes.

En una palabra, esto es necesario verse para formar juicio, por cuya razon, escusamos entrar en minuciosos detalles.

El jardin frutal es de lo mejor del pais, por la excelente calidad de su fruta, como asi mismo lo escogido de las legumbres.

Para ver el plano, como para cualquier otro dato, ocurrir a nuestra casa, San Martin 51.

La quinta esta a disposicion de los que quieran inspeccionarla.

Cien leguas de Campo.

En Santiago del Estero
Orden del Exmo Gobierno de esa Provincia
Con derecho a ubicar donde se quiera
Primera vez que se vende con esta condicion
SIN BASE ALGUNA
Venta a Plazos
En nuestra casa San Martin No 51
El Miercoles 5 de Octubre
A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo dicimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion, de manera que el primera que compre, sea el primero que elija y asi sucesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta alguna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Dielli. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

Los titulos son inmejarables, por planos y otros datos, ocurrir San Martin 51.

Base de venta $30,000 m|c
Pagaderos en ocho anualidades
En nuestra casa,
78—ALSINA—78
El Viernes 14 de Octubre
A las 3 p.m.

Remataremos a la mas alta postura con la base de venta de ochenta mil pesos m|c por league que se deben al Gobierno de la Provincia en letras pagaderas en ocho annalidades sin interes y en fracciones de media legua con opcion a 4 laguas, estos magnificos campos, situados en la seccion diez y ocho y distantes solamente 10 leguas de las valiosas estancias de los Sres Duggan hermanos y D Guillermo Sanson; campos que podian vender hoy de 200 a 250,000 ps legua y una vez que aquellos progresistas hacendados y propietarios concluyan de alambrar y poblarlos valdran pesos 300,000 m/c.

Los campos que ofrecemos en venta estan de Buenos Aires a la misma distancia que los del famoso Venado Tuerto y garantimos que son tan buenos como aquellos.

Garantimos la calidad de la tierra, y los que compren sin ver devolveremos su dinero si los campos resultasen arenosos ó inferiores.

Venderemos lo mejor que hay al Oeste. Actualmente el agrimensor D Angel Silva esta mensurando estos campos, y los adyacentes, en cuya operacion estara ocupado mas de una vez, asi es que los interesados pueden facilment obtener datos sobre ellos.

El Sr Silva, persona competente y que ha recorrido esa parte de la campaña, tiene la opinion de que estos campos son los mas valiosos de la seccion XVII por la calidad de sus pastos, ausencia completa de medanos y proximidad a Lavalle y Lincoln.

En la semana entrante los planos estaran a la disposicion del publico y entonces daremos pormenores en nuestra casa Alsina 78.

NOTA. El comprador que pague al contado al Gobierno tiene un 26 o|o de descuento.

El Sabado 8 de Octubre,
A las 3½ de la tarde,

Procederemos a la venta, dinero de contado y con la infima base de $150,000 m|c por legua cuadrada, por orden de su propietario.

Esta area de campo compuesta de 5080 vs de frente por 10,170 vs. de fondo, equivalente a 2 leguas cuadradas.

Estos campos lindan con los del Sr. Dr. Don Diego de Alvear, herederos de Urquiza, Armstrong y otros distando unicamente 12 leguas del Pergamino que sera cabeza del Ramal del Ferro-Carril del Oeste y que estara abierto al publico en Junio del año entrante, asi que podrá llegarse en el dia a estos campos.

Su calidad es muy superior a los famosos campos del Venado Tuerto que estan mas distantes, y que fueron vendidos a 200,000 pesos termino media la legua.

Creemos escusado entrar en mas detalles y recomendaciones sobre la bondad y el valor de estos campos; mencionaremos unicamente que en estos dias han ofrecido por los campos de la testamentaria de Alcorta que distan seis leguas de estos, 300,000 pesos por legua.

ENGLISH LITERARY SOCIETY

ANNUAL REPORT.

Finance.—The Committee have great pleasure in presenting the Sixth Annual Report, showing as it does, ever-increasing prosperity; they trust that the condition of the Society, financially and otherwise, will be found satisfactory.

By referring to the annexed Financial Statement it will be seen that the cash in hand shows an increase of $8,664 over the balance of the previous year, notwithstanding considerable outlay in permanent assets.

The balance-sheet shows as follows:—

Value of furniture	$19,010
Reference Library	16,018
Circulating Library	34,701
Newspapers &c. paid for in advance	3,441
Members' subscriptions yet owing to date	3,900
Cash in hand	39,9 9
Leaving nett assets	$116,977

Code of Rules.—The Rules and By-Laws of the Society, together with those of the Circulating Library, have been re-arranged and printed in a handy book form, copies of which are to be found in the reading room.

Conversation Section.—The advisability of establishing conversation meetings, in which members might unite for general conversation without the formality necessary at the official meetings, having been suggested to the Committee, it was decided to give them a trial, and for this purpose the chess-room has been placed at the disposal of those interested, one night in every week. It was the intention of the initiators of this scheme to furnish the Open Discussion meetings with subjects and speakers for debate.

Reading Room.—The contract made in 1880 with Messrs. Dewey & Co. for the supply of European and American newspapers and magazines was renewed; in the European part the delivery has been prompt and in every way very satisfactory, but, with regard to the American, such has not been the case, for many irregularities have occurred. 'The Atlantic Monthly' has not been delivered for the first six months of the present year, while 'Frank Leslie's Illustrated Newspaper' and 'The New York Weekly Tribune' have not appeared on the reading table since the month of April. The Committee regret the inconvenience, unavoidable on their part, to which many members have been put, but they have been given to understand that Messrs. Dewey & Co. have made arrangements which will secure a more efficient service in the future. In renewing the contract, 'The Weekly Mail' and 'The Pall Mall Budget' were discontinued, and 'The Times' and 'St. James's Budget' taken in their place, and 'The Scientific American' and 'Scribener's Monthly Magazine' added to the list. The Society receives in all, as shown by the annexed list, 59 periodical publications, including three London dailies, and in this manner it is believed that the current Literature of the time is worthily represented in the Reading Room.

Reference Library—This has been increased during the past year by a considerable number of bound volumes of the Illustrated and Comic Journals, which now form a large and interesting collection. Several new works of reference have been added at the request of the members, and the whole library consists at present of 289 volumes.

Circulating Library—The working of this institution has gone on smoothly. The Committee have much pleasure in recording the fact, that, as yet, not a single volume has been lost or destroyed. In January of this year a supplement to the catalogue was issued giving a list of the works added during 1880. Since the publication of the last report the library has been increased by the addition of 92 new volumes, among which appear Max. Muller's 'Science of Language,' 2 volumes, presented by Mr F. Bonnezen, and Gallenga's 'Prussian Invasion of Denmark,' 1 volume, presented by Mr A. P. Seedorff. The total number of bound volumes now belonging to the library is 1268; the number of members availing themselves of it during the year was 95, and 1132 volumes were lent out. The increase of books made the purchase of a new book case necessary; it was accordingly procured.

Suggestion Book—A short time since a book was laid upon the table in the reading room for the purpose of inviting suggestions from the members generally as to what books it would be desirable to add both to this and the reference library, and it is hoped that this manner of making known their wants will be largely made use of.

Members—It is gratifying to notice that the list of members still shows an increase compared with former years, the number this year being 302 against 291 the year previous, thus making an addition of 11 notwithstanding that several have left the country.

Syllabus—A summary of the entertainments and the weekly meetings in the reading room will be found on the fourth page. The prevalence of open discussions is accounted for by the fact, that, although no subjects for debate were officially announced, many of those meetings were provided with subjects for discussion by the conversation section. The entertainment for August could not be given on account of the increased amount of work entailed by the repetition of the performance at the Opera, but one will be given on Wednesday, October 5th.

Building Fund—In accordance with a resolution passed at the last general meeting, a Special Committee was appointed to inquire into the feasibility of changing the Society's premises, and since then a performance has been given at the Opera House to raise a fund in aid of that object. This performance, organized by Mr. W. Martin, resulted in a nett profit of $23,788. No decisive steps can be taken in this matter until various propositions regarding the manner of proceeding are decided on by the General Meeting.

In conclusion, the Committee desire to congratulate the members on the continued success of the Society, the usefulness of which is now recognised more than ever. They also take this opportunity of thanking those ladies and gentlemen who have on so many occasions lent their time and services on the Society's behalf, thus in a great measure contributing to its success.

W. Leighton Jordan,
President.
J. A. Besler,
Hon. Sec.

Buenos Ayres, Sept. 1st, 1881.

The Committee for next term was then elected in the usual form, with the following result:—

President, Mr W Leighton Jordan, F.R.G.S.

Vice-President, Mr. J T Ramsay.

Hon. Treasurer, Mr. A Paludan Seedorff.

Hon. Secretary, Mr. J A Besler.

Hon. Librarian, Mr. M L Munro.

Director of Entertainments, Mr W Martin.

Committee, Dr Webster and Mr F Short. Substitutes, Messrs Grant and Schutt.

The number of members on the roll at present is 302, and additions are being continually made.

LATEST FROM MENDOZA.

(Our Own Correspondent.)

September 17th, 1881.

Sir,

On the 12th of this month we have been visited by one of those periodical dry storms to which we are subject at this season of the year; these, which are a species of hurricane, on coming from the north and beating against the Cordillera, appear at first as a steady blow, producing only a cloud of dust and doing little or no damage, but after a time, concentrating in the Valley as a species of whirlpool, increasing in severity, though only felt at intervals, when, however, it is most damaging, as the puffs, though only of short duration, are most violent, producing an exceedingly unpleasant state of things, almost putting an entire stop to business, as everybody declines to go out of doors, unless absolutely forced to do so. The damage done on this occasion is not very serious, being confined to the destruction of a certain number of trees, torn up by the roots, and the unroofing of some ranchos and 'enramadas' of ancient construction; it is many years since a storm of the kind of such intensity has been experienced here, though few years pass without something of the kind occurring. Otherwise the spring season has had a glorious commencement and though, according to the Almanack, spring should not put in an appearance until the 21st of this month, it is already in reality far advanced, and, unless unusually severe frosts should occur later on, the summer promises to be a magnificent season for fruit of all kinds; we must hope we may escape the terrible infliction of a locust invasion, although, as I am sorry to learn from the *Standard*, this plague has already made its appearance in some parts, at this early period.

It is to be presumed that the general readers of the *Standard* will have passed by unnoticed the 'polemica' now going on for some time between the editors of the two Mendocino papers, which would not be at all surprising, as even the public here hardly paid much attention to the diatribes which have appeared in almost every number, more particularly in the columns of the Government organ *El Constitucional*. On the 13th, however, affairs reached a climax, the above mentioned paper containing an insulting and threatening notice addressed by its editor to those of the opposition journal *El Ferro-Carril* (this I have cut out and it goes herewith enclosed). At about midday on the 13th Dr Barraquero, editor of the *Ferro-Carril*, was proceeding on his usual road towards the Colegio Nacional, where he has charge of the Aula de Filosofia; he was attacked unawares by Don Rudolph Zapata, editor of *El Constitucional*, who struck him with a stick. On Barraquero making effective use of a similar weapon, in self defence, the first mentioned party drew a revolver and fired at him, fortunately without effect; he was then knocked down by Barraquero and deprived of his weapon, a second shot going off during the struggle. This act of Mr. Zapata is generally qualified as a premeditated attempt at assassination, and had not Dr. Barraquero most generously declined to prosecute, and the influence of Zapata's friends (he is nephew to our actual Governor) had him at once liberated from the Police Station, where both combatants were confined, affairs would have shown a very serious appearance for the latter, as, apart from his political friends and influential relations, he has little sympathy to expect from any quarter, enjoying as he does a far from enviable reputation.

The *Constitucional* gives a different version of this disagreeable affair; however, respectable witnesses have affirmed it took place as stated.

There seems now to be every chance in favor of the rapid developments in this province of the new industry mentioned in a former letter, that of the production of mineral oil. Mr Campbell has had a well sunk on the land which he has denounced for the purpose and at a depth of about 10 feet has struck a large, freeflowing vein, or deposit of oil, which, if it proves true to the analysis already made of surface material, of which there is little doubt, will undoubtedly prove a source of great wealth to all concerned; the more so as at a distance of some leagues farther to the south, some inexhaustible deposits of the same article are known to exist. In the immediate neighborhood of the mines of the Sierra de Cachenta, now being prospected by Messrs Campbell & Co, there are known to exist positive surface indications of different minerals, such as iron, coal, silver and some gold; and an open mine is found close at hand, out of which considerable quantities of silver ore are said to be have been extracted some years ago; it is the intention of the new company now in course of formation to work this also, and generally take advantage of the mineral wealth of the district. A beginning once being made and a certain amount of population congregated in the vicinity of this hitherto neglected neighborhood, with some capable, enterprising spirit, backed by practical miners, to produce the requisite animation consequents upon success, the result cannot well be other than most advantageous, and it may be expected that from this section of the province alone, a sufficiency of freight will eventually come forward to pay the working expenses of the Mendoza section of the Trans-Andine Railway.

GOVERNMENT Mortgage Bank

Offices 111 CALLE SAN MARTIN

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid on long dates.

It gives Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of propeaty offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortisation fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly

Mortgage for 20 years 117 days, 8 per cent interest 2 per cent. amortization, and 1 per cent commission.

Series B—Quarterly

Mortgage for 27 years 270 days; 8 per cent interest, 1 per cent amortization, and 1 per cent commission.

Series C—Half-year y

Mortgage for 20 years 190 days; 8 per cent interest, 2 per cent amortization, and 1 per cent commission.

Series D—Half-yearly

Mortage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sum stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortisation.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half-yearly mortgagers shall pay between the 8th and 15th of each January and July.

With the amortization fund, morigage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 15th January, and from 30th June to 15th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for the purpose will receive deposits without interest which will receive a preference, and which sums will be deposited in the Provincial Bank

Cedulas are taken in deposit from 1 Cedula of 50 Patacons the lowest amount issued by the Bank) upwards.

JOSE M. LA FUENTE
Secretary.

MALTINE.

(Extract of Malted Barley, Wheat and Oats)

The Original and only Reparative Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow rank next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
